

Questions to ask before buying timber products:

1. Can the company provide you with credible certification such as FSC? This logo is your guarantee that the product comes from well managed forests. *This is Good Wood, and is OK to buy.*

2. Is it from verified recycled, reused/recovered or community eco-timber? *This is Good Wood, and is OK to buy.*

3. Is the product made from hardwood timber such as merbau or rosewood that could be from Australian or tropical rainforests? If so, can the company provide you with credible certification such as FSC? *If not, DO NOT BUY THIS PRODUCT.*

4. Can the company provide you with information about the species or whether it is from a legal source? *If not, DO NOT BUY THIS PRODUCT.*
