Mr Alok Pradhan
Corporate Communications,
Bayer Crop Science
Mumbai

12-10-04

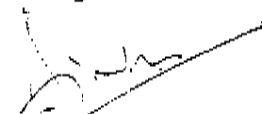

Dear Sir,

This is with reference to our meeting on 6-10-04 in Mumbai, where your team was unable to answer our questions on the transgenic research undertaken by your company as they did not have the information with them. You assured us on their behalf that you would provide us with satisfactory responses on receiving a formal request from us.

It is in this regard that we would like to know:

1. The present status of the following projects undertaken by you (Pro Agro- PGS)
 - a. Mustard with bar, barnase, barstar
 - b. Tomato with Cry1 A(b)
 - c. Brinjal with Cry 1 A(b)
 - d. Cauliflower with Cry 1 H/ Cry 9C
 - e. Cabbage with Cry 1 H/ Cry 9C
2. If any of these projects were abandoned the reason for the decision.
3. A list of crops (with the specific traits) that are being experimented with by your company presently.

Looking forward to your response,

Divya Raghunandan
Campaigner
Greenpeace
