Michael -

This is a start. OPPO Research is one of Elin's pet areas of interest. Let's both try to step up the pace for posting info on other organizations. Mongovin at one time had a very large, I mean very large, database on opposition groups. It might be worth a visit to Jack to find out what it would take (\$\$\$\$) to put it on the PPMS Website. We may need to put another layer of security in to keep it restricted to those who need to know.

In my current cynical mood, I've always had Mongovin a notch above Ketchum when it comes to getting the "rest of the story" on a person or an opposition group.

If this is what we get for \$480,000/yr.....

Couple of things:

1. On the Dow merger side if things, any and all documents related to this issue we now have to hold on to. For the foreseeable future, please provide us updates on our alternative email addresses. We will send you these in a separate email.
2. Ask Tim how things are going in Philadelphia on the AMS situation.

Thanks in advance!

Tom

Need to attach the report.

On another note, can you let Tim Ward know that Elin Miller (Global VP of Public Affairs for Dow) would like to come to Annapolis for the afternoon of July 28th for a presentation on Greenpeace.

Thanks in advance,

Tom Donnelly

Subject: Dow Chemical Proposal

For Tim Ward only:

Tim...I pulled the following together per our meeting Tuesday.

quote

Active Intelligence Collection

BBI proposes to initiate a discrete, long-term program of active intelligence collection that will provide client with information on the plans and intentions of the international environmentalist movement. This sensitive all-source intelligence collection effort, mounted from outside the US, will be focused on specific foreign-based organizations. Our objective will be to collect reliable warning and indication information on the specific issues of interest to client. BBI will design all aspects of this program, analyze all information collected as a result of this effort and provide client with regular updates based on the relevant intelligence obtained. Safeguards will be designed into the program to ensure that the client's interest in the environmentalist movement will not be revealed.

Case No. 867-201-001-99

Ms. Kathleen Jeavons
Vice President/Account Supervisor
Ketchum Public Relations
2000 L Street NW
Washington, D.C. 20036

Dear Ms. Jeavons,

Reference is made to the email of Mihaela Grad, dated November 13, 2000 requesting a copy of all invoices submitted to Ketchum on the Dow Project for the year 2000. This request also included projected invoices for the months of November and December, 2000.

During the audit of the Ketchum account, we discovered that the billing for the month of April, 2000, was somehow overlooked. I have created an invoice for April and submitted it to accounts payable under separate cover.

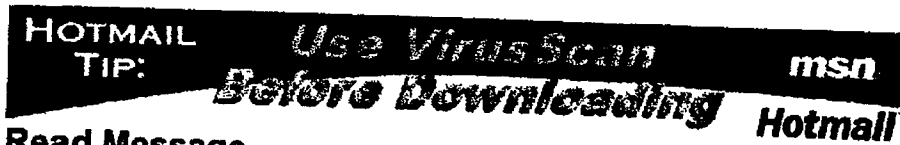

Attached are copies of twelve invoices totaling \$50,000.

If you have any questions, please call me at the above number.

Sincerely,

S2i Corporation

Jay A. Bly
Manager of Special Projects

Tom -

We don't yet have the system in place to conclusively give you the list
you are looking for. Ask again in about one year.

For now, here's the list of debates (we're trying hard to not say
issues) where we are spending our time:

1. Chlorine chemistry (including PTB's, POP's, Vinyl and Dioxin)
 2. Plastics in the Environment
 3. Styrene toxicity
 4. Endocrine disrupters
 5. Climate Change.
 6. (Tort Reform)
 7. International Trade
- Dennis Heydanek
