ANNUAL REPORT 2005

The Board of Directors and the Executive Director hereby present the following annual report. Figures are in thousands of Swedish Crowns (KSEK) if nothing else is stated.

STATUTORY ADMINISTRATION REPORT

Global Environmental Organisation

Greenpeace is an international environmental organisation which goes from words to action to confront global environmental degradation and produce solutions which lead to a world in peace and ecological balance. Greenpeace Nordic is part of the global organisation which has its headquarters in Amsterdam, the Netherlands. Greenpeace has offices in some 40 countries and regions around the world.

The global strategy of Greenpeace is decided jointly in different structures at a global level with input from national offices.

Greenpeace Nordic

Greenpeace Nordic is a non-governmental, non-profit organisation registered in Stockholm with offices also in Helsinki, Copenhagen and Oslo.

Decisions regarding the annual report, indemnity for the board of directors etc are taken by the voting members at the Annual General Meeting (AGM). The six members of the board of directors are elected by the AGM. The members of the board of directors are working without any form of remuneration. The day to day operations are carried out by an office – spread over four Nordic countries – headed by the Executive Director.

Greenpeace Nordic does not accept financial support from governments or corporations. Greenpeace is dependent on engaged individuals for its funding.

Greenpeace Nordic is cooperating with other environmental organisations.

Greenpeace Nordic is working by means of information to the public, communicating with politicians and industry, and through non-violent direct actions.

Our goal is to protect planet Earth and its capacity to nurture life in all its diversity and beauty. Greenpeace believes that positive changes demand action. In order to protect nature and to create peace, courage, independence and ability to work globally are necessary. We are fighting for a sustainable and equitable society, promoting solutions based on the most recent scientific knowledge and the best traditional techniques. We are scrutinising and shining light on governments and corporations.

Greenpeace works in a number of key areas in order to fulfil our vision. We work to counteract climate change, protect life in the forests and oceans, and to prevent the threats to man and environment from nuclear activities and from chemical and biological hazards. Greenpeace supports the development of environmentally sound methods of production.

OPERATIONS 2005

The board of directors of Greenpeace Nordic has during 2005 consisted of six members. Irmí Mussack has been Chair of the Board of Directors. Irmí Mussack has also been the representative of Greenpeace Nordic to meetings in the global organisation.

Executive Director has been Lennart Daléus

We carried out a number of activities and campaigns during the year 2005. Top priority during spring was the Forest Rescue Station in northern Finland. Three Greenpeace ships visited the Baltic Sea and the Barents Sea to underline the need for substantial marine reserves. We also participated in the climate change expedition with the ship Arctic Sunrise to Greenland and supported researchers who were documenting climate change.

In the Nordic area, the number of supporters prepared to give financial support increased by 5 % during 2005. The number of supporters thereby reached 105 509 by the end of the year. This shows that there exists strong support for our ambitions to make planet Earth a greener and safer place to live in.

	Primo		
	2005	2006	Change
Finland	15 913	19 659	23,54%
Norway	3 100	2 574	-16,97%
Sweden	64 737	67 809	4,75%
Denmark	16 735	15 467	-7,58%
Total Nordic	100 485	105 509	5,00%

FINANCIAL POSITION AND PERFORMANCE

Supporter Income increased by 5 164 to 61 107.

Greenpeace Nordic uses two "90-account" on which income of 4 685 has been registered.

Income 2005 includes support to Greenpeace Russia amounting to 2 880.

Greenpeace has received external funding of 1 300.

The 2005 surplus will be invested in future work to save the planet.

	2005	Variance	2004

ACCOUNTING PRACTICES AND POLICIES

The Annual Report has been prepared in accordance with the Annual Accounts Act and the guidelines issued by the Swedish Accounting Standards Board. If no guide lines has been issued by the Swedish Accounting Standards Board, guidance has been taken from the standards issued by the Financial Accounting Standard Council.

Accounting practices and policies are the same as previous years.

Income

The Association's income consists of supporter fees, donations and bequests. Income is shown as the real value of what has been received or will be received. Income in the form of gifts is booked as income during the period the gift was handed over in a legally binding way,

Receivables

Receivables are valued individually and booked to the amount with which they are estimated to be received.

Receivables and Payables in Foreign Currencies

Receivables and payables in foreign currencies are recalculated to the exchange rate at closing day in accordance with the Financial Accounting Standard Council recommendation no.8. Exchange rate differences on receivables and liabilities relating to operations are included in the operational result, where as exchange rate differences relating to financial items are included in the financial items.

Expenditure

Expenditure is recognized in the period in which incurred.

Costs for Campaigns include salaries for campaigners, operations and maintenance of action equipment. Campaign costs also include contributions to Greenpeace Russia and to Greenpeace International. Furthermore it includes attributable shares of office and administration overhead.

Fundraising expenditure includes salaries to staff, costs for recruiting new supporters and other costs to maintain and upgrade our supporter income. Also fundraising carries its share of office and admin overhead.

Administration costs include staff and system costs for supporting the organization.

Depreciation of campaign equipment is charged to Campaigns. Depreciation of computers, furniture and office machines are allocated on a head count basis.

Tax

Greenpeace applies the Swedish Accounting Standards Board guidelines concerning reporting of income tax, BFNAR 2001:1. Total tax consists of current tax and deferred tax. Current tax is tax which should be paid or received concerning current fiscal year. Included in current taxes are also adjustments of current tax from previous periods. Deferred tax is calculated according to the balance sheet method considering temporary differences between accounting and tax regulations on assets and liabilities.

Intangible Assets

The costs for developing a new supporter database have been capitalized. The database is under construction and primarily developed within the organization. The database will be in use mid 2006. Depreciation will start when the database is finalized. Depreciation will be linear over ten years, the estimated lifetime.

Tangible Assets

Tangible Assets are valued at purchase price and depreciated evenly over a period of three years.

Financial Investments

Greenpeace Nordic does not invest in shares or securities. For the purpose of receiving information and to be able to attend shareholder meetings, the organization holds least possible number of shares in some forest and chemical companies. Further on Greenpeace Nordic has shares in a Danish windmill coop.

Shares and securities inherited or received as donations are sold.

Provisions for legal disputes

A provision for legal disputes is made in accordance with the Swedish Financial Accounting Standards Council, RR 16. Liabilities, including legal disputes, are provided for in full when the amount can be assessed with reasonable certainty.

NOTES
