日本政府への要請

Demands to the Japanese Government

1. 市民の健康を第一に考えること。高線量地域に住む妊婦、乳幼児、子どもについて、すみやかな避難の経済的支援、その他の必要な支援を行い、適切な除染を行うこと。
Put the health of citizens first. Provide full financial and logistical support for the prompt evacuation of pregnant women and children living in high radiation areas, and conduct full clean up of contaminated areas.
2. 放射線を年間1ミリシーベルト以上浴びるリスクについて、市民に適切な説明をすること。さらに、より脆弱な子どもや妊婦については、1ミリシーベルト以下についても、リスクを説明すること。
Openly communicate the risks of being exposed to any extra radiation dose, namely those above 1 mSv/year to the public, and even lower doses to vulnerable citizens such as children or pregnant women.
3. 人々、とくに子どもの内部・外部被ばく量積算について調べ、その結果を市民に提供すること
Urgently research accumulated radiation doses in children, taking into consideration both internal and external exposure, and ensure full transparency of results.
